

# 20 years and counting!

Dear Friends of Creation Education,

With this issue we celebrate the 20th anniversary of *CEA Update*. Our abiding thanks to friends like you who have made it possible to proclaim the truth of Creation over the years. With your contributions and your prayers, we are determined to continue battling for the truth.

We are certain readers will gain much insight from this issue of *Update*. We cannot recommend highly enough the film *God of Wonders* – now available on DVD. The film inspires and educates with cinematography and visuals that rival the National Geographic channel.

Bruce Malone's new book, *Censored Science: The Suppressed Evidence* may be the most creative, artistic and enjoyable educational tools in print on the subject of Creation. Quite simply, every family should own a copy of this marvelous book.

Again, we wish to express our sincere appreciation to all who have contributed to the Creation Education Association ministry. Your donations, prayers, and many expressions of encouragement have been a true blessing. We thank the Lord for your help and trust that He will continue to bless CEA through your loyal support.

As you have the opportunity, please tell your friends and neighbors about CEA. You may also want to arrange a presentation in your church, school, or other organization. Let's hear from you in 2010!

Serving our Creator and Redeemer,

Eugene Sattler
